

GL ShipManager

Interested in increasing transparency and efficiency of fleet and crew management activities?

Ship & Voyage Management

- Port Information
- Port Clearance
- eNOA/D
- Crew Management / Wages
- Ship Cashbox
- Drills
- Canteen

Fast and efficient handling and processing of documents in port provides considerable benefits to crews onboard in the form of reduction of workload and the certainty of provision of all relevant documents.

GL ShipManager – Ship & Voyage Management offers electronic forms and standardized document functions for fast and efficient processing onboard ship and in the office. Nearly 500 standard port clearance documents may be accessed at any time. The system additionally provides a continuous archiving function which not only reduces paperwork, but also allows the consistent tracking of all activities.

Gain more control over vessel and fleet management

GL ShipManager - Ship & Voyage Management enables an easy overview of each ship's whereabouts at all times. A vessel's route can be easily preconfigured based on customizable port lists maintained in the system. The corresponding port documents, crew lists and other forms can be easily integrated so that personnel on board have access to the required documentation as needed. The accompanying eNOA/D module allows for the easy exchange of data and fulfills all requirements of the NVMC.

Gain more control over crew management and payrolling

Crew data is managed efficiently, making use of the selection lists and linked data already maintained in the system. The payrolling function enables the reliable, efficient and easy accounting of wages, salaries, bonuses, cash advances and other payables for crew members. Ship Cashbox administers the ship's cash on hand and enables the easy visualization of all cash transactions regardless of currency. The SVM module is rounded out by a drills management function that allows you to easily schedule, plan content and supervise periodic training exercises and drills.
